			15-17 March	3 days
	Drive Troubleshooting and Service for Customers		29-31 March	3 days
			20-22 September	3 days
			4-6 October	3 days

All classes are held at the Danfoss factory in Loves Park, Illinois.

Classes typically begin at 8:30 AM and conclude at 4:00 PM.

Deadline to register for a factory session is two (2) weeks prior to the course state date.

Successful completion of courses include CEUs upon request.

If you are attending sessions given in the same week, tuition is assessed by the cumulative duration of the sessions attended. For example, if you attend both 2-day sessions offered for the VLT AQUA Drive (Startup and Operation and Advanced Programming), tuition costs are \$525, which is the cost of a 4-day session (2 days + 2 days). This offers a discount to purchasing the courses separately, which would otherwise total \$550 (\$275 + \$275), please see Tuition Schedule on next page for rates.

Danfoss Drives - MCU Training 2010 Tuition Costs

Effective: January 1, 2010

Match the duration of your selected class from the previous page to determine your tuition, then use the appropriate order code.

Field training costs represent prices for sessions conducted within the continental 48 states of the USA. Please contact the factory for a quote on field training conducted outside the continental 48 states.
