

Special Commendation for VLT® HVAC Drive

Danfoss' VLT® HVAC Drive received "Special Jury Commendation" for the product design category during the 4th Bry-Air Awards for Excellence in HVAC&R, 2008-09, in India.

The award ceremony was held in conjunction with COMFEX-2009 - an exhibition of Air Conditioning, Refrigeration, Ventilation and Building Services in India - at Pune on January 9th.

The award was presented to Danfoss by Ms. Anu Aga, ex-chairperson and director, Thermax Limited, in presence of Dr. PC Jain, Chairman of Indian Green Building Council and Spectral Consultants Pvt. Ltd., the foremost HVAC consultancy organisation in the country.

The Award for Excellence in Product Design is intended for product innovation, which has been in the market place in the last 5 years and

- Has created a new market or significantly developed an existing market.
- Competed successfully internationally on the basis of novelty, price, quality, functionality and reliability.
- Has had a significant impact on energy saving/efficiency.
- Is unique in design, innovative use of new/existing materials, safety in manufacturing & use, functional ease, replacement of conventional materials, energy conservation and environment friendliness.

Josh S Paikada, senior manager-Marketing, HVAC/R, India, received the plaque for Danfoss.

The winner of the award in the Product Category was a continuous ice cream freezer which in itself had the lowest energy consumption among such products in the world. Interestingly, this product also has a Danfoss NTZ 108 compressor inside, and was developed by M/s. Synergy Agro-Tech Private Limited, Ahmedabad, who is a Danfoss India customer.
