Sales Info

Top cover to be preassembled to shell on all DCR filter drier shells

Introduction

Currently the DCR filter drier shells and top covers are shipped together unassembled. We plan to preassemble the top cover to the DCR with all 8 bolts with 1 Nm of torque. See illustrations below.

Current packing

Future packing

Advantages

More robust design and optimization of assembly process

Implementation

All DCR filter drier shells produced after week 44, 2007 will be with this improvement.
