

How to Launch an eLesson

All available courses can be found in our Course Catalog. Here, you can find, view and register for your chosen courses.

Once you register for an eLesson, it appears on the home dashboard under the In-Progress Learning Activities portlet. To launch it, you just have to click on the Launch link.

What to do...

When you register for a course, you can see it in the **In-Progress Learning Activities** portlet

How to do...

In-Progress Learning Activities		
Sort By Registration Date		
Name	Registration Date	Actions

Tips!

- If you have to stop in the middle of the eLesson Danfoss Learning will remember where you stopped.
- If you finalize the eLesson successfully you will have the possibility to print a certificate of completion. If you are not connected to a printer you must save the certificate of completion as PDF to be able to print at a later point.
